

Being a US citizen I shouldn't have to put up with unwanted calls from telemarketers. With a full time job and raising a family, my time at home is priceless - I simply do not have time or want these types of calls when I'm at home. The Indiana call list is one of the best things our State has done in the last couple of years. Please do not make any changes to Indiana's Telephone Privacy law! Thank you for your time. Donna S Pickel
